From The Shed

Course News as at 27/11/12 - *Summer (almost)!*

Well it's almost summer and still little sign of rain, just over 50mm of rain during November helped give some growth and colour on the fairways but hasn't topped the creek or dams up.

Everyone needs to do a rain dance *(but just a little one so we don't get too much!)*

However the weather has helped us get the greens in to great shape. We carried out a light grooming last week and will be carrying out another light groom next week to help combat all the growth we are getting at the moment.

This procedure will continue right through the summer while the weather is dry so keep an eye out for staff on the greens and please be patient.

Enjoy your golf!
