

HOUSE REPORT 2017

The house has seen a few changes this year. It proves a very difficult task to make comprehensive improvements to the Clubhouse taking its age and general condition into consideration. Having said that I feel we have managed to make a few small inroads this year. With the boards approval and keeping in mind the ongoing costs of carpet cleaning and the poor state of repair we disposed of the old carpet and had the floors redone. Hence the old floorboards are back along with very serviceable laminate planks. Proving much easier to keep clean and with no on going costs.

The Honour Boards are gradually all being replaced with the new more modern looking boards. The original boards are mostly archived.

The placement of five new Poker machines has been implemented and are proving very popular.

Wayne has taken on the task of the Catering and has kept it in-house after having had a few false starts with various Caterers. This has proved very popular with Members and visitors alike and serves to keep the profits in house .

I would like to thank all my helpers and volunteers that have been on hand and very willing with their support through the last 12 months.

TERRI CAIRNS
