

From The Shed

Course News as at 19/12/12 – Merry Christmas!

Obviously no one has been doing my rain dance for me as we have only seen 34mm of rain for December which is 100mm below average. It has been a hot, dry, smoky start to summer and the bottom dam on the 9th is nearly empty.

Once the bottom dam is drained we will relocate the pump and begin pumping from the top dam however relief is in site as a new location for a bore has been found and plans are in place to drill immediately (*it will probably rain that day*).

The greens are in great condition at the moment, starting to tighten up a little and I'm sure we'll see some more pace in them over the next 6 weeks. We will continue to scarify greens as needed over the coming weeks so keep an eye out for staff and please be patient.

Because the course is so dry at the moment it is important we are careful where cart traffic is concentrated, some areas are becoming very bare and hard. Please follow signs and drive where directed.

For those members with buggies in the sheds, please be sure to follow the path from the sheds around the maintenance shed (not through) and along past the 18th tee and down the left hand side of 18, picking up the track on the top end of 18 as wear from carts cutting across the 17th fairway is starting to become a problem.

I wish everyone a very merry and SAFE Christmas and a fantastic New Year full of many enjoyable golf days!

Bring the kiddies, the family and the mates and come and have a hit!

Kirsty Herring
